# Klearfil

## Features:

- Hybrid pleated/depth construction provides exceptional dirt holding capacity
- Up to eight graded media layers
- Exceptional high dirt holding capacity
- Steam or hot water sterilisable
- Ideal for fluids with wide particle size distribution
- Can be used as a pre-filter or final filter
- Removal ratings 0.5 to 75 micron
- Removal ratings are validated by the industry standard OSU-F2 (modified) test
- Biologically safe
- All materials are FDA approved 21 CFR 177-1520
- Minimal extractables

## Applications:

- Final particulate filtration down to 0.5µm
- Prefiltration to final bacterial rated filters
- Filtration of biological fluids
- Clarification
- Removal of high concentration of fine solids
- Fine chemicals, reagents, photographic emulsions, inks, paints and plating solutions
